S11	Gooseneck Stand - no Base	\$ 45

The 520-2D Digital Bar Code scanner brings 2D bar code scanning to Worth Data customers! The 520-2D can be utilized as a USB keyboard output scanner on any PC running Windows® 8, 7, Vista, XP, 2000, ME or 98SE, and Macintosh® OS X. Scanned data is displayed on the PC as keyboard data - scan data into any application, just place the cursor where you want bar code data and press the trigger to scan - it is that easy!

Using the 520-2D reader to scan bar codes is easy since it reads omni-directionally - simply point and shoot! No matter how the bar code is oriented, the 520-2D provides a quick and accurate read.

1D bar code types supported are UPC/EAN, UCC-EAN 128, Code 39, Full ASCII Code 39, TriOptic Code 39, Code 128, Codabar, MSI, Code 11, GS1 DataBar (RSS-14 GTIN), Interleaved 2 of 5, Standard 2 of 5, Bookland EAN, Code 93.

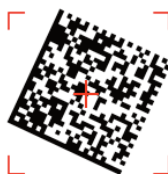

The 520-2D reader also provides scanning of 2D bar codes such as PDF417, microPDF417, MaxiCode, DataMatrix (ECC 2000, ECC1400) Composite Codes, and QR Code, as well as the Postal Codes IMBC, US Postnet, US Planet, UK, Japan, Australian, Korean, and Dutch.

A "stand" scanning mode is available for this scanner for use with our optional hands-free stand (\$69); this allows you to present bar coded items to the scanner without having to pull the trigger.

See our website for new product announcements as well as details on any of our products!
