- Quality products, quality service!

LZ410 Integrated Laser Readers

The LZ410-USB and LZ410-WDP are integrated laser keyboard output bar code readers with the top rated Worth Data WDP decoder built-in. Scanned bar code data appears on your computer as if the data had been keyed in - there are no software changes required. All software that accepts keyboard data will accept bar code data too. Just scan a bar code and the data will appear wherever your cursor is placed - it is that easy!

The LZ410 Laser Scanners are rugged industrial-quality bar code laser readers. Combined with our decoding firmware, you won't find a better reading laser. The LZ410 Laser Scanners features the Symbol 1200 Scan Engine and are built to withstand multiple 5 ft drops to concrete. The LZ410 feature distance scanning up to 18 inches away on a medium density bar code and they reads any type of printed media. The warranty on the LZ410 is 3 years.

This laser uses our rugged ergonomic gun handle that is lightweight and comfortable enough for all day scanning. This scanner easily reads all popular 1D bar codes including; Code 39, UPC, EAN, Code 128, GS1-DataBar, ITF Interleaved 2of5, MSI Plessey, Code 93, Codabar and many others.

The LZ410 lasers scan 36 times per second, shutting off after the first successful read, making reading appear instantaneous to the user. Reading even poor quality codes is fast because a few misreads are not noticed. Durability on both models is greatly increased by the addition of rubber bumpers around the top of the gun and a robust .060" thick scratch resistant laser scan window that is recessed. A "stand" scanning mode is available for both lasers for use with our optional stand (\$69); this allows you to present bar coded items to the scanner.

LZ410-USB / LZ410-WDP

Model No.	Description	Price
LZ410-USB	Laser Scanner USB Keyboard	\$499
LZ410-WDP	Laser Scanner Keyboard Wedge	\$499
Replacement Cable Selection		
C41	5-6 pin convertible "Y" Cable	\$ 25
C40	USB Cable	\$ 25

-Components International

LZ410-USB

- LZ410-USB attaches as HID keyboard directly to USB port
- USB Works on Windows® 7, Vista, XP, 2000, NT, ME, & 98SE or Macintosh® OS
- Scan from 0" to 18" away on medium density bar codes
- Reads high density codes down to 3 mil narrow bar width
- Well suited for distance scanning & rugged environments
- Uses Symbol® 1200 Scan Engine with life time warranty on scan element
- 36 scans per second for "instant" reading
- "Triggerless" mode available with stand for "hands-free scanning"
- 3 year warranty, durable rubber bumpers

LZ410-WDP

- LZ410-WDP attaches as second keyboard using a Mini-Din Legacy Y-Cable (PC only)
- Scan from 0" to 18" away on medium density bar codes
- Reads high density codes down to 3 mil narrow bar width
- Well suited for distance scanning & rugged environments
- Uses Symbol® 1200 Scan Engine with life time warranty on scan element
- 36 scans per second for "instant" reading
- "Triggerless" mode available with stand for "hands-free scanning"
- 3 year warranty, durable rubber bumpers
